Subject: Proposed MYCA

I am writing to comment on the proposed Muslim Youth Camp/Convention Center,

22-2 I live in Fox Run Development off Scales Bend Drive. The one exit on Scales Bend Drive to 965  
13 is already difficult to exit from at peak times. The traffic analysis report online describes the  
additional MYCA traffic to be about 45 cars per day, or about 8 additional houses. What about the  
100+ additional houses that have been built since the analysis was completed in Oct of 2000  
22 3 (over 2 years ago)? Is there a plan to add another entrance and/or a stop sign/light?

3376 — Wouldn't it make more sense to build this "camp" near a major airport that already has the hotels  
and restaurants needed to accommodate up to 4,000 people for conventions? North Liberty  
basically only has a Subway and a few sport bars.

2-15 I would much rather see the city of North Liberty build a park/campsite on the land. It can still  
have cabins and camping spots. Then the land could be used by anyone for camping, retreat's,  
2-5 and recreation. If it is a Muslim youth camp, that would pretty much would discriminate again  
everyone in Iowa.

5-8 I would also worry about it developing into a terrorist cell. I already heard about a guy from Cedar  
Rapids that was arrested for links to the Sept 11<sup>th</sup> attacks.

Thank you

Rick Janik
